

Our demands to
National biosafety
Authority (NBA) are:

1

Mandated to regulate research and commercial activities involving **GMOs** with a view to ensuring safety of human and animal health and provision of an adequate level of protection of the environment

#SayNoToGMOs

2

Committed to pursue excellence and teamwork in service delivery and collaboration among internal team members and external stakeholders.

#SayNoToGMOs

3

Establish and maintain a biosafety clearing house mechanism for availing information on GMOs
